

## Fox Valley Advance Care Planning Partnership

### Imagine...

you are in an accident, or develop a serious illness, and you can't make health care decisions for yourself.

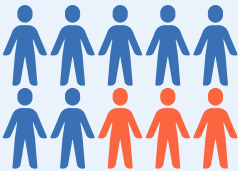

- Who would make those decisions for you?
- Would they really know what you want?
- Have you completed a Power of Attorney for Health Care? It's required in Wisconsin.

of people think it is important to talk about end-of-life wishes.

32%

Only 32% have actually had a conversation about their wishes

THAT'S ONLY  
3 OUT OF 10

THAT HAVE LOVED ONES  
WHO KNOW WHAT TO DO.  
Don't leave them guessing!

Source: The Conversation Project (2019, April 8)

Advance Care Planning is making sure the people who matter most, know what matters most to you so they can follow your wishes.

Its thinking about, talking about, and writing down your wishes for health care so your loved ones don't have to wonder, or carry the burden of

"did we do the right thing?"
